High Density ODF

- LongXing offers wide range of High Density Optical Fiber Distribution Frames which are ideal for using at the IDCs and the central offices.
- These ODFs are used to provide efficient cable connections between communication facilities. LongXing's ODFs integrate fiber splicing, storage, and cable connections together in a single unit.

Up to 4752 Cores!

**MAYBE THE
HIGHEST DENSITY
ODF IN THE WORLD**

GPX82-9-1

Features

- Supports 4752 LC or 3168 SC ports per frame: Saves space through increased port density.
- Rear cable access only.
- Modular design: Enables one rack for many application spaces e.g. central office, headend, FTTx and data center.
- Increased patch cord routing space: Supports standard 1.6 and 2.0 mm patch cords.

Series H

	Dimensions(H*W*D)mm	Max Capacity(SC)	Max Capacity(LC)	Patch Panels with Regular Rail		
				Model	SC	LC

GPX82-9-2

Features

- Supports 4,320 LC or 2,880 SC ports per cabinet: Saves space through increased port density.
- Front cable access only.
- Allows for back-to-back frame configuration.
- Modular design: Enables one rack for many application spaces e.g. central office, headend, FTTx and data center.
- Increased patch cord routing space: Supports standard 1.6 and 2.0 mm patch cords.

GPX82-10

Features

- Standard 19" & ETSI installations.
- Designed to be used together with high density side access type patch panels.
- Maximum fiber density of 2016 ports (splice & patch) and superior cable management.
- Special cable glands to fix the maximum number of bundle cables on the ground.
- Slot type cable guide compartments to feed the modules via miniflex tubes.
- No crushed or stressed fibers.
- Wide range of splice, patch and cable storage options.
- Bend radius protection of 35 mm throughout entire frame and all modules.
- Max cable protection.
- Interchangeable cassettes for various cable/tube counts and connector styles.
- Accepts WDM and splitter cassettes.
- Integral patch cords management.

08

Patch Panel

- LongXing fiber optic patch panels provide a centralised point for termination, splice, storage and distribution of optical fibers.
- LongXing offers perfect solutions for the crucial elements of fiber cable management; connector and cable accessibility, bend radius protection, cable routing paths and physical protections through these patch panels.
- The patch panels are mountable on 19"-23" racks.

» For more designs and details:

<http://www.lxtelecom.com/fiber-optics/patch-panels.html>

ODU-L21

Features

- Compact 3U patch panel, accommodates 6 fiber trays.
- Max capacity of 24 fibers for each fiber tray.
- Max capacity of the patch panel is 144 fibers for LC Duplex adapters.
- Patch Panels are rear mounted for improved access.
- Fiber trays and connected patch cords can slide in and out independently as a pull-out unit.
- Easy side access ensures laser safety.
- Special splice module design, which allows splicing on one side and professional cable storage on the other side without cable congestion.
- Modules are tiltable up to 135 degree for ease of installation and maintenance.
- Special incoming cable fixing unit which ensures strong, easy and quick cable fixing for miniflex tubes-no need to use time consuming plastic cable ties.
- Integrated outgoing patch cords clamps and routing guides, which ensures min bend radius criteria of 35mm and professional cable management.

Model	Dimension(mm)			Capacity	
	Height	Depth	Width	SC	LC
ODU-L21	3U	258	19"/21"/23"	72	144

ODU-L11

Features

- Designed for a high-density fiber management system.
- Easy installation: 19", 21" and 23" rack mounting.
- Front rack mount brackets work with most network cabinets.
- Easy operations: using sliding rails to install the high density modules.
- Easy removable of modules.
- Multi-functions – Works with LongXing Series modules H1 (ultra high density).
- Protected patch panel offers secure environment for adapters, patch cords and pigtails.
- Adoptable adapter types: SC, LC.

Model	Dimension(mm)			Capacity		
				Module H1		Module Quantity
	Height	Depth	Width	Capacity

» For more designs and details:
<http://www.lxtelecom.com/fiber-optics/patch-panels.html>

ODU-L10

Features

- Removable trays for easy upgrade (each tray can hold 12 adapters FC, SC, LC/Duplex).
- Tray have two different areas, one for splicing and the other for patching.
- Multiple configurations combining patching and splicing.
- External cable can be entered through two lateral (left and right) access – total front access for users.
- All fiber management accessories ensures a minimum curvature radius of 30mm.
- Multi-functions – Works with LongXing Series modules G (not just for splicing & terminating, also with options for splitters or fiber storage).
- Front door can be selected push button or key lock; allow easy access to the splicing and connectorization trays.
- Splice and connectorization tray allows entry and organization of patch cords up to 0.9mm in diameter.

Model	Dimension(mm)			Capacity	
	Height	Depth	Width	FC/SC/ST	LC duplex
ODU-L10	1U	280	19"/21"	24	48
	2U	280	19"/21"	48	96
	3U	280	19"/21"	72	144
	4U	280	19"/21"	96	192

ODU-L27

Features

- Loaded with OSP-M1 PLC Splitter.
- 4U Rack Mount to hold 4 pieces of 2*32 OSPM PLC Splitter.
- Customized design available upon request.
- Compact Design.
- Mount to standard EIA 19 " rack rails.
- Steel construction with Black Powder Coating.
- Ensure signal integrity, proper cable routing, bend radius control and cable protection.
- Provide higher patch field density in fewer rack units saving valuable space.
- Assures flexibility and ease of network deployment and moves, adds, and changes.
- Provides a complete system solution for connectivity.

Model	Dimension(mm)			Capacity	Quantity of Splitters
	Height	Depth	Width		
ODU-L27	4U	220	19"	192 for LC	Qty.8,2*32
	4U	220	19"	96 for SC	Qty.4,2*32

10

Patch Panel

<http://www.lxtelecom.com/fiber-optics/patch-panels.html>

ODU-L25

Features

- Top quality steel with cover by nonflammable electrostatic painted ensures a strong body, resistance to corrosive influences and pleasing appearance.
- Front and rear door have push buttons; allow easy access to the splicing trays.
- Easy operations: Sliding mechanism both forward and backward.
- Easy installations: 19" wall mounting.
- For standard 19" racks use (other rack width options available on request).
- Adoptable adapter types: SC simplex adapters and LC duplex adapters.

Model	Dimension(mm)			Capacity	
	Height	Depth	Width	FC/SC/ST	LC duplex
ODU-L25-1(Fiber to fiber)	4U	450	19"	144	288
ODU-L25-2(Drop cable to fiber)	4U	550	19"	144	288

ODU-L24

Features

- 1U (enables splitting up to 32 SC or 64 LC ports).
- Swing Out system with front cable management for patch cords.
- Manages small & large quantities of fiber with a high packing density.
- Compact Design.
- Mount to standard EIA 19 " rack rails.
- Steel construction with Black Powder Coating.
- Ensure signal integrity, proper cable routing, bend radius control and cable protection.
- Provide higher patch field density in fewer rack units saving valuable space.
- Assures flexibility and ease of network deployment and moves, adds, and changes.
- Provides a complete system solution for connectivity.
- 1:2, 1:4, 2:4, 1:8, 2:8, 1:16, 2:16, 1:32, 2:32, 1:64, 2:64 splitters of SC/LC connector types can be embedded inside.

Model	Dimension(mm)			Capacity	Quantity of Splitters
	Height	Depth	Width		
ODU-L24	1U/44.5mm	280	19"	32 SC	Qty.1,1*32 / 2*32
	1U/44.5mm	280	19"	64 LC	Qty.1,1*64 / 2*64

ODU-L1

Previous Model Number: GPX82-ZK2

Features

- Front rack mount brackets work most network cabinets.
- Removable front door with designation labels.
- Vertical cable guides on exit side allow for managed routing and protection of the fiber exiting the panel.
- Multi-functions - Works with all **LongXing Series A modules** (not just for splicing & terminating, also with options for fiber storage).
- Protected patch panel offers secure environment for adapters, patch cords and pigtails.
- Adoptable adapter types: FC, SC, ST simplex adapters and LC duplex adapters.

ODU-L5

Previous Model Number: GPX82-RRM

Features

- For stand 19" racks use (other rack width options available on request).
- Easy operations: Rotate style.
- Cable can be entered on both left and right sides.
- Total front access for users.
- LongXing adapter panels are used for quick and easy adapter installations.
- Removable front door with designation labels.
- Protected patch panel offers secure environment for adapters, patch cords and pigtails.
- High Density, see the capacity chart below.
- Adaptable adapter types: FC, SC, ST simplex adapters and LC duplex adapters.

Model	Dimension(mm)			Capacity	
	Height	Depth	Width	FC/SC/ST	LC duplex
ODU-L5	1U	300	19"/21"/23"	12	24
				24	48

ODU-L7

Previous Model Number: TGP-Y0904

Features

- Removable front-top cover for easier operations.
- Protected patch panel offers secure environment for adapters, patch cords and pigtails.
- Height: 1U-2U, depends on capacity and adapter type chosen.
- Adoptable adapter types: FC, SC, LC, ST, E2000.
- Adapter Panel adopted for easy operation.

Model	Dimension(mm)			Capacity	
	Height	Depth	Width	FC/SC/ST	LC duplex
ODU-L7	1U	280	19"/21"/23"	16	16
				24	24
	2U	280	19"/21"/23"	32	32
				48	48

ODU-L8

Previous Model Number: TGP-Y0902

Features

- Easy operations: Drawer style.
- Cable inlet system provided on the rear side which has excellent performances for fixing outdoor cables.
- Fully stable patch panel, no risk of movement.
- Adoptable adapter types: FC, SC, LC.
- Options of Splice trays & fiber management guides.

Model	Dimension(mm)			Capacity	
	Height	Depth	Width	FC/SC/ST	LC duplex

ODU-L19

Features

- UP to 144Fiber LC Ports.
- Qty. 6 MTP/MPO Cassettes with 12/24 LC.
- Flexibility to Mix Adapter Plates with Cassettes in Patch Panel.
- Available in SM, OM1, OM2, OM3 and OM4 fiber grades.
- Flat Front Panel for Optimal Cable Routing.
- Removable Top for Easier Fiber Cable Management.
- Easily Accessible MPO/MTP Ports for Connection to Trunk Cable.
- Compliant IEC-61754-7, EIA/TIA-604-5 & RoHS.
- Factory terminated and tested.
- MPO/MTP components feature superior optical and mechanical properties.

Model	Dimension(mm)			Max Capacity	Quantity of Cassette
	Height	Depth	Width		
ODU-L19	159mm	250mm	390mm	144	6

ODU-L20

Features

- Mounting:
 - ◆ 19-inch racks or cabinets.
 - ◆ Other mounting kits available.
- Fiber Chassis Data:
 - ◆ Fiber capacity: 72 FC/SC, or 144 LC.
 - ◆ Termination.
 - ◆ Pigtail storage.
- Hinged on left front side; allows full access to rear of front plate and interior of panel.
- 6 position adapter holders sold separately.
- Equipped with removable metal doors with Plexiglass windows.
- Designation labels included with each panel.
- Complete line of accessories including locks for security, cable clamp kits, bonding/grounding kits, ordered separately.

Model	Dimension(mm)			Capacity	
	Height	Depth	Width	FC/SC/ST	LC duplex

NEW

Other Options

Power. 110-240V. A pre-wired 20 Amp quad receptacle is usually a standard feature.

Power Supply (Breaker, Rectifier, Monitor)
 A system consists of Breaker, Rectifier and Monitor.

Ground bar kit. 10-position
 10 position isolated copper ground bar.

19" or 23" Mounting Panel. Standard fiber panel and MPO/MTP panel available.

PDU. Suitable for all kinds of 19" standard cabinets and nonstandard cabinets. Designed as modular structure.

Battery: AGM VRLA Batteries

Battery Storage. Normally designed to accommodate standard telecom style batteries.

Laptop Tray

L Rail Set

Interior Light

Heater

Fan

Air Conditioner

Heat Exchanger

Door Alarm

Water Alarm

Smoke Alarm

Dynamic Environment Monitoring Systems

Generator Plug & Interlock

Door Latch Tool. Extremely secure and impermeable.

Lifting brackets. Don't worry about loading your enclosure before installation. Crane install: Stainless steel lifting brackets on top.

Solar shield roof. The space between the double walled roof allows heat to dissipate reducing the effects of radiant heat.

Optical Splitter

Splice Tray

Distribution Module

19" or 23" Relay Racks. Adjustable rails for easy mounting.

Mounting Base

Distribution Module

- LongXing optical distribution modules are designed for the purpose of optic fiber organization, storage and fiber optic fusion protection.
- Three types available: Splice & Distribution, Splice only, and Storage & Patching Module.
- Light and beautiful plastic structure.
- RoHS compliant.
- Ensuring minimum fiber bending radius.

- Fiber slack storage units are devices used to coil up and store additional length of fiber optic cable. This secures the cable while eliminating slack. The fiber slack storage device can be mounted aerially, on a wall, or inside a vault. Primus Cable supplies half round spools, plastic Sno-Shoes, and cable management round spools to organize fiber.

Splice Closure

» For more designs and details:

<http://www.lxtelecom.com/fiber-optics/splice-closures/aerial-fosc-gpj83-12.html>

GPJ83-12

Overview

LongXing GPJ83-12 fiber optic splice closures (FOSC) are used to distribute, splice, and store the outdoor optical cables which enter and exit from the ends of the closure. There are two connection ways: direct connection and splitting connection. Suitable for different ways of cable's divergent and splicing, including uncut cable.

Features

- Sealing style: Box use mechanical seal style.
- Installation style: Aerial.
- Box Material: Modified Polymer Plastic.
- Seal Material: Vulcanized Silicone Rubber.
- The protection grade reaches IP 65.
- Installation Method: Aerial or Hang on the entrance cable directly.
- Two-layer system, bottom layer for splicing, top layer for splitting & distribution.
- Structured construction fixed by simple buckle, easy for operation.
- Ambient temperature ranges from -40 to 65°C .
- The closure is of small volume, big capacity and convenient maintenance.
- The closure casing is made of quality engineering plastics, and of good performance of anti-erosion against acid and alkali salt, anti-aging, as well as smooth appearance and reliable mechanical structure.
- The mechanical structure is reliable and has the performance of resisting wild environment and intensive climate changes and serious working environment.

Dimensions and Capability	
Dimensions (L*W*H)	605mm*167mm*87mm
Quantity of Fiber	4 in, 16 out
Adapter Type	SC, LC
Max Cable Diameter	16mm
Max Ratio	(1*8)*2
Max Capacity	24

GPJ83-11 series

GPJ83-11A
Splice type

GPJ83-11B
Splitter module type

Overview

LongXing GPJ83-11 series Aerial Weathertight Splice Closures are designed for aerial strand-mount FTTH drop locations where drop cables are spliced to distribution cables. These free breathing closures combine grommet cable sealing technology and splice tray, the splitter module is also available. Aerial Weathertight Splice Closures are suitable for special feature with SSW cable. These durable, easy to install closures will increase productivity, reduce labor expenses and last through the life time of your network.

Features

- Chemical and mechanical resistance for all the aerial application areas in the fiber networks.
- Cover most of the applications in the premise wiring networks like Fiber To The Home (FTTH).
- Closure adopts hinge/buckle mechanism which makes dismantling/assembling easy.
- Cable entry section can accommodate 1 main cable with up to 16c SSW cable.
- Can accommodate up to 8 drop cables.
- Convenient attachable splitter module with 1:8 splitter module & 1:4 splitter module for drop cable installation.
- Re-useable grommet sealing open and close easily for adding or removing drop cables providing efficient cable installation with no mess.

Applications

Dimensions and Capability

Dimensions (L*W*H)	400mm*60mm*130mm (Splitter module type GPJ83-11A)	
Material	Molded plastic	
Cable Diameter	Main cable	SSW aerial optical cable: 1 PC
	Drop cable	2×3 mm: up to 8 PCS
Cable Ports	2 for main cable	
Maximum Fiber Storage Capacity	Single-fiber	12 splices points
No. of Optical Adapter	Max. 8×SC adapter	with 1×8 splitter module

28

Splice Closure

- LongXing GPJ83 series fiber optic splice closures, made of quality engineering plastics, are designed to simplify splice management.
- No heat, adhesives, drills or powered equipment for installation or re-entry are required.
- They are applicable to man-holes, tunnels and aerial, etc.
- Protection level reaches IP66.

MTP / MPO

➤ For more designs and details:
<http://www.lxtelecom.com/uploadfile/down/catalog/longxing-mtp-mpo-solutions.pdf>

ULTRA DENSITY

Most densely populated patch panels

- 1U Angled or 1U Flat
- Up to 144 fiber in 1U, LC to MTP / MPO
- Factory configured for rapid deployment
- Single-mode or multimode (OM3/OM4)

MTP / MPO HARNESSES

- Pre-terminated MTP / MPO-LC or MTP / MPO-SC
- 12 or 24 pin MPO connectors
- Connect directly to equipments

MTP / MPO TRUNK CABLES

- Pre-terminated 40G/100G backbone
- 12 or 24 pin MPO connectors
- MTP / MPO cassette to cassette connections

HIGH DENSITY

Modular patch panels fully loaded with MTP / MPO cassettes

- 1U or 3U (max 4 MTP / MPO cassettes per 1U)
- Up to 96 fiber in 1U, LC to MTP / MPO
- Work with MPO Cassettes
- Factory configured or build your own

MTP / MPO CASSETTES

- Up to 4 cassettes in 1U
- 12, 24, or 36 fiber per cassette
- Easy installation/replacement

HIGH DENSITY

Modular patch panels fully loaded with adapter plates

- 1U (max 4 adapter plates per 1U)
- Up to 108 fiber in 1U, LC to MTP / MPO
- Work with Adapter Plates
- Factory configured or build your own

ADAPTER PLATES

- Up to 4 cassettes in 1U
- 12, 24, or 36 fiber per cassette
- Pigtail/Splice tray sets available

Accessories

MTP / MPO Adapter

- Type A (opposed) or type B (aligned), Full Flange
- Free-hanging or panel-mount design
- High Performance, Premium Quality
- High-strength casing materials

* Customized pre-terminated high density solutions available upon request.

- LongXing produces a wide variety of fiber cable assemblies and accessories designed to meet the specific application needs of our customers, which range from patch cords, multi-fiber assemblies and connectors to adapters.

<http://www.lxtelecom.com/fiber-optics/accessories/field-installable-connector.html>

Overview

LongXing Fast fiber connector is used for field-installable optical fiber connector, widely used in Fiber To The Home (FTTH) access optical networks, not only for single-mode or multimode fiber, and can also choose to 900um, 3 mm and the introduction of cable buffered type. With fast installation time and low insertion loss, the connector system provides a good alternative to fusion splicing. Installation is as easy as strip, clean, cleave and crimp.

Features

- Compatible with standard SC connectors.
- Field installable, cost effective, user friendly.
- UPC, APC polishing optional.
- Reliable durable and superior optical performance.
- Low insertion loss and high return loss.
- Stable capability and high reliability.
- Excellent mechanical capability.

SC-APC

Technical Specifications

Plug Type	SC/UPC	SC/APC
Connector Length	51mm	51mm
Optical Fiber	2mm*3mm Butterfly Type	2mm*3mm Butterfly Type
Insertion Loss	Average $\leq 0.25\text{dB}$, Max $\leq 0.5\text{dB}$	Average $\leq 0.4\text{dB}$, Max $\leq 0.6\text{dB}$
Return Loss	$\geq 50\text{dB}$	$\geq 60\text{dB}$
Thermal Shock	$\leq 0.30\text{dB}$	
Storage / Operating Temperature	$-40\sim+80$	
Tensile Strength	$\geq 30\text{ N}$	
Average Assembly Time	$\leq 2\text{ minutes}$	
Assembly Repeatability	$\geq 5\text{ times}$	
One-Time Assembly Yield	$\geq 98\%$	

38

Fast Connector

» For more designs and details:
<http://www.lxtelecom.com/fiber-optics/connectors/sc-fast-connector.html>

Features

No-epoxy/no-polish or other consumables required

Quick and easy installation, less than one minute per connector on average

100 percent factory tested for insertion loss

Typical insertion loss of 0.2 dB for UPC and 0.3 dB for APC connectors

Factory-polished end face

Low insertion loss and high-performance return loss

Reliable, proven mechanical splice technology

Over 70 million connectors deployed in various applications

No need for electrical power for ovens or lights

Reduces complexity

Angled Fiber Stub

Inside all LongXing connectors regardless of polish to maximize back reflection performance

Standards

Intermateability

Connectors are FOCIS compliant with TIA/EIA 604-3 (SC), FOCIS 10 (LC)

Approvals and Listings

Passed EIA/TIA 568-B.3

Design and Test Criteria

Telcordia GR-1209 and GR-1221

Technical Specifications

Insertion Loss	Average $\leq 0.2\text{dB}$, Max $\leq 0.4\text{dB}$
Return Loss	UPC $\geq 40\text{dB}$, 55dB typical at 25 degrees C + 5degrees APC $\geq 55\text{dB}$, 60dB typical at 25 degrees C +/- 5degrees
One-Time Assembly Yield	$\geq 97\%$
Assembly Repeatability	≥ 5 times
Average Assembly Time	≤ 3 minutes
Life-Time	≥ 30 years
Tensile Strength	$\geq 30\text{N}$ (2.0x3.0 drop cable.)
Operation Temperature	-40 °C ~+75 °C

- LongXing optical splitters use Planer Lightwave Circuit (PLC) technology for split ratio 2, 4, 8, 16, 24, 32 and 64.
- Application for FTTX network, LAN/WAN or CATV network.
- Low Insertion loss, Low PDL.
- Good channel-to-channel uniformity.
- Wide Operating Wavelength: From 1260nm to 1650nm.
- Wide Operating Temperature: From -40℃ to 85℃.

Monitoring System

For more designs and details:

<http://www.lxtelecom.com/active/communication-power-supply/monitoring-system-mc2000.html>

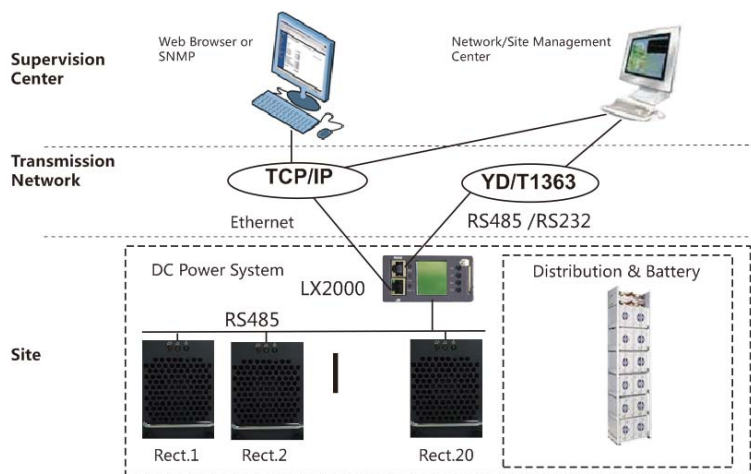

MC2000 is the new generation DC power controller module developed by LongXing. The Controller module adopts ARM7 CPU as primary controller, and RTOS as system platform. MC2000 offers many features and functions, and a more robust, user-friendly, and easy-to-use interface.

Key Functions

Measurement	Analog value measurement
	Digital value measurement
Communication	The Controller can communicate with the host computer in three modes: RS232, RS485 and Ethernet (WEB and SNMP). It can communicate with the rectifiers in RS485 mode.
	For remote and local monitor system via WEB browser, controlling, parameters upload/download, data load.
	SNMP protocol supports GET, SET and TRAP on Ethernet.
DI/DO	8 user digital input interfaces freely configurable
	8 groups of dry contact outputs freely configurable
Screen and Leds	High resolution LCD screen display running information and local setting interface
	Green/Yellow/Red LEDS indicate running status for local instant diagnose.
Alarm history, event history store	200 alarms history and 1000 events history store, FIFO for system analysis.
Data log store(advanced version)	2000 data logs including bus voltage, load current, battery current and temperature with time tag.

Power Distribution Units

➤ For more designs and details:
<http://www.lxtelecom.com/active/power-distribution-units.html>

LongXing Network Power's Rack PDU Systems is a family of products that delivers power and management to connected IT equipment through a global and comprehensive offering including Basic, Managed and Adaptive Rack PDU systems.

Each of the Rack PDU systems LongXing offers is well-suited for delivering power to sensitive, high capacity, rack-mounted equipment. Determining which is best for a particular installation requires knowing the basic power requirements of the equipment in the rack, deciding on the acceptable or preferable level of monitoring and control and then balancing those considerations against site requirements.

The LongXing Rack PDU product line includes models to fit all types of installations: new or established; stable or rapidly changing; contracting or expanding. Each type of installation may require any or all types of LongXing Rack PDUs.

After determining your requirements, refer to the data and specifications for each product.

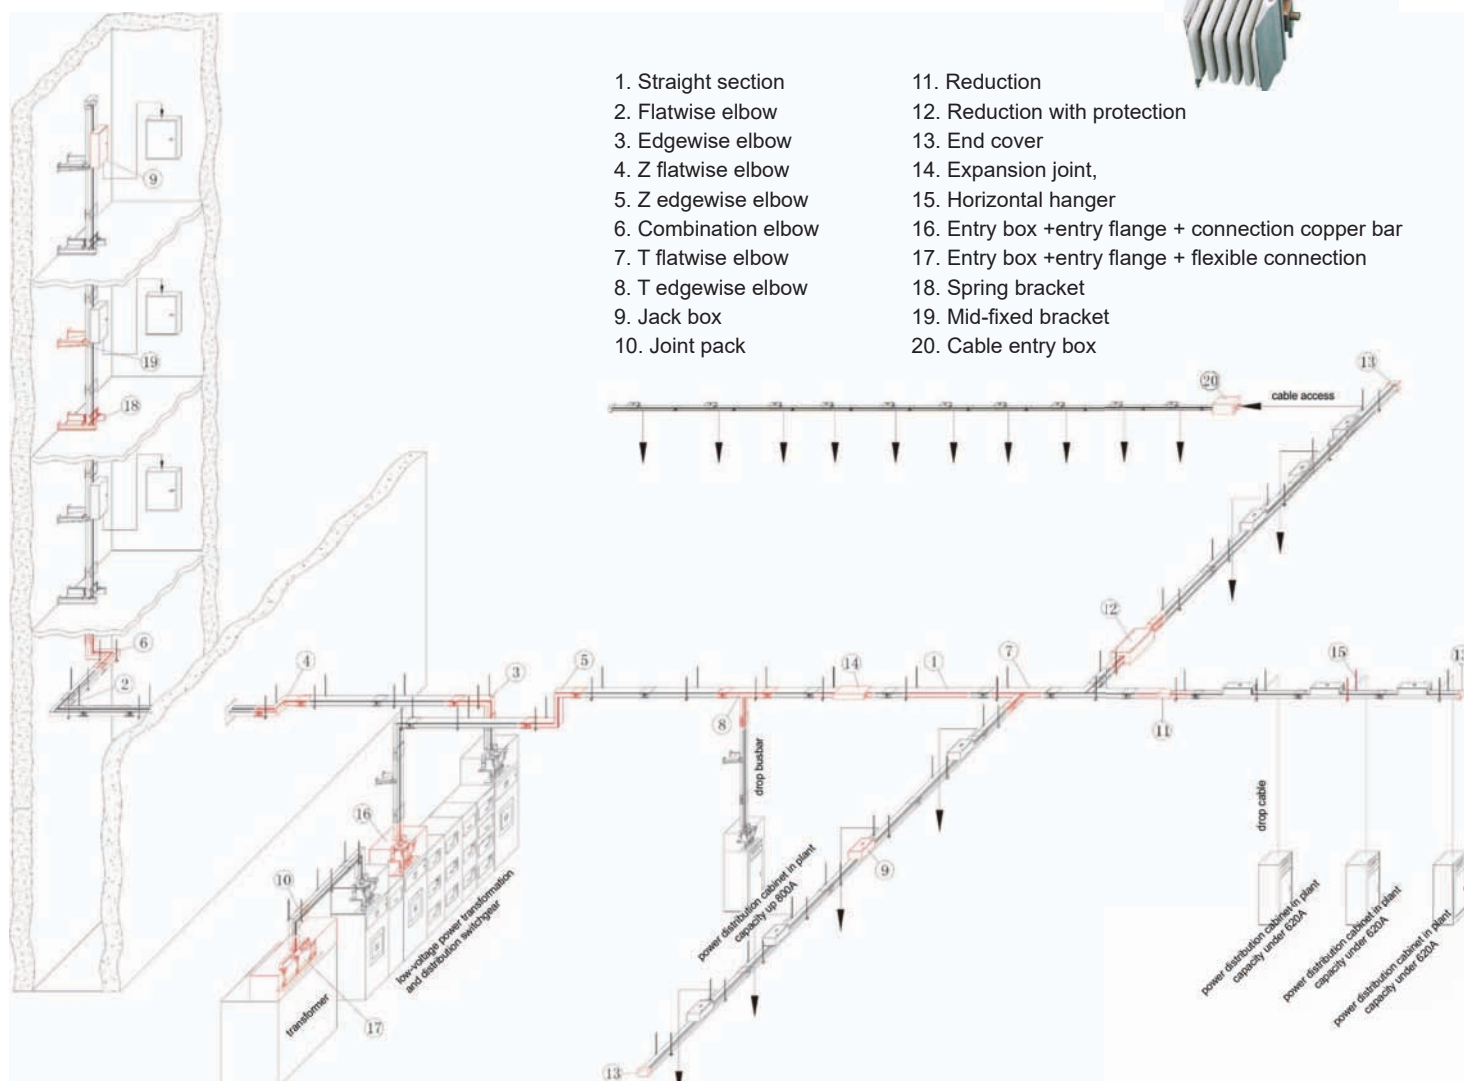

Optional Output Units

FCM-II compact type busbar system fully comes from the technology form UK Gardermoen Electric, and it's also combined with the electrical environment, enjoys elaborate R&D, safe and reliable performance, and also attractive appearance. The product conforms to GB7251 and IEC60439 standard, with the rated voltage 1000V, rated current ranges from 400A to 6300A, 16A to 1250A plug-in current, and the max protection IP66, it can be applicable to 3P3W, 3P4W and 3P5W system etc. FCM-II enjoys the best overall performance in low voltage busbar field, and gets a wide use in large commercial plaza, high-rise buildings, intelligent building, gymnasium, industrial factories, hospitals and other important occasions.
