

Thermoelectric Air Conditioner

DC200

Overview

LongXing Air Conditioner Cooling Solution can be widely used in enclosed area for climate control, such as wireless communication cabinet, battery cabinet, industry control cabinet etc. LongXing air conditioners are designed to cool your electronic and electrical controls, instruments, computer terminals, printers, telecommunications equipment, surveillance devices, cameras, laser and optical equipment and many other electronics in variety of environments. Our electronic cabinet cooling systems are designed for use with a wide range of enclosures and transit cases. Models are available for both indoor and outdoor use in AC and DC power configurations. Coolers feature corrosion-resistant stainless steel construction.

Features

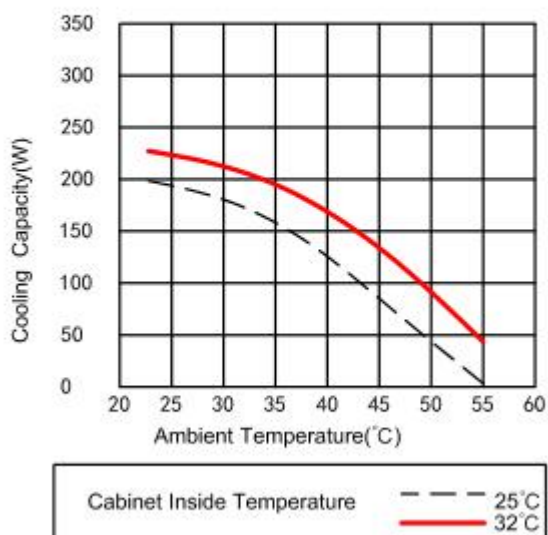

- Refrigeration system is not used refrigerants, few movement part, small volume;
- Strict process control and international brand parts deployed to ensure high quality and reliable of this product;
- Multiple self protection design , RS485 communication through MODBUS protocol;
- Circulation fans stepless speed regulation function;
- The heating function optional;
- Eliminate hydrogen function optional;
- Dry contact alarm output, NO/NC optional;

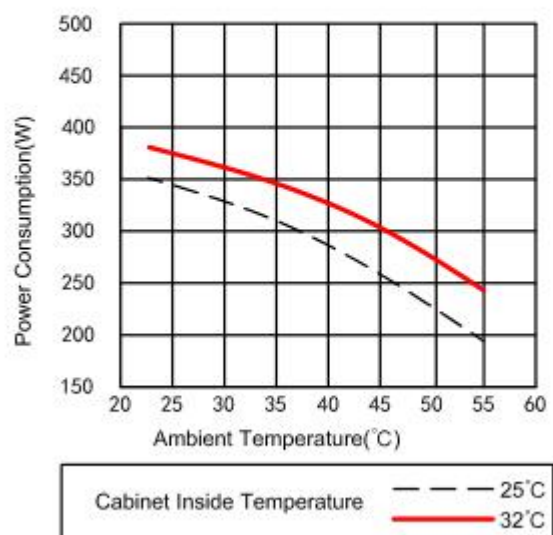

Technical parameters

Name	Thermoelectric Air Conditioner
Code	DC200
Power Supply	-48VDC Nominal(-44VDC ~ -58VDC)
Cooling Capacity	200W@L32/L32
Consumption	350W@L32/L32
Heating Capacity(Optional)	300W@L35/L35
Internal Airflow	240m ³ /h
Working Temperature Range	-10°C~+55°C
Noise Level	67dB(A)
IP Grade	IP55
Net Weight	7.0kg
Mounting Method	Semi-embedded Mounting
Dimensions(H*W*D)	400mm*180mm*178mm
CE&RoHS Compliant	Yes
